### EuroPit 2023

 **20 - 22 November 2023**

Application deadline: **Tuesday 2 May 2023 23:59 (CEST)**

 **Les Pensières, Annecy, France**

**EuroPit 2023**, a multidisciplinary programme, including Pathologists, Neurosurgeons and Endocrinologists from across Europe, will take place again this year!

Running from 20 - 22 November 2023, in Les Pensières, Annecy, France, the course provides a comprehensive perspective of Pituitary Disorders Management.

#### How do I apply for the course?

Complete and upload the documents as stated via the link below before Tuesday 2 May 2023 23:59 (CEST). Successful applications will have complimentary food and accommodation (two nights at Les Pensieres) as well as access to the course. Applicants will need to book their own travel and should arrive in time for the start of the course (9am on Monday 20 November).

## Course objectives

- **Educate:** Provide a foundation in the diagnosis and management of pituitary disorders for young doctors.
- **Network:** Create a sense of community around future doctors who will be managing pituitary disorders in Europe.
- **Multidisciplinary programme:** Students and expert Endocrinologists, Neurosurgeons and Pathologists spend three days together.
- **Broad course on the management of pituitary disorders:** Pathology, investigation, treatment options and the development of optimised care in the future.
